

ProfCam by Ken-A-Vision®

CeilingDocCam II

910-171-066

A ceiling-mounted camera that captures detailed images for display on a variety of devices. The CeilingDocCam II delivers superb image clarity for monitors, plasma screens, video projectors and videoconferencing systems. A wide field of view and six zoom settings make it easy to use with different document sizes - from large documents such as blueprints or CAD drawings to an area the size of a postage stamp.

CEILING DOCCAM II ADVANTAGES

Superior Image Quality and Performance

- Wide field of view captures large documents
- Up to 300X zoom provides excellent detail
- Works with monitors, plasma screens, video projectors and videoconferencing systems
- High-quality CCD image sensor delivers 480 TV lines of full-motion video for superb image clarity and color
- Outputs both composite and S-Video signals concurrently for dual-monitor display in large rooms

Easy to Use

- Single Cat.5 cable carries video control and power signals
- Laser positioning guide makes document placement simple
- Six preset zoom settings makes it easy to adjust for different document sizes
- RS-232 port with VISCA™ control protocol cables easy connections to a control system
